LODGE PUTS IN DEFENCE BILL.

Senator's Measure Directs President to Carry Out Garrison's Recommendations.

Washington, Dec. 18.—Senator Lodge of Massachusetts introduced a bill yesterday carefully directing the president to carry out the recommendations in the annual report of Secretary of War Garrison to increase the efficiency of the army. Under the bill he would be authorized to fill the mobile army to its full strength and appoint one thousand additional officers, discharge enlisted men from the service at the expiration of eighteen months' service and constitute them a military reserve, subject to call in time of war. This action of Senator Lodge would appear to indicate that the president's secretary of war has the backing of at least the Republicans in Congress.

CHILD SUFFERED WITH SKIN TROUBLE

Looked Awful, Rough and Red. Skin Would Break and Itch. Very Painful. Cuticura Soap and Ointment Completely Healed.

31 Unit St., Providence, R. I.—"My child's face looked awful. It was all scurvy, rough and red and you could feel it off. The skin would break and itch and she would cry with it. It was so painful. She suffered like that for about two months and it would itch so that she would scratch and rub it off. "I tried different things until one day my husband said, 'Why don't you try Cuticura Soap and Ointment?' That same day I wrote for a sample and then my husband bought some more Cuticura Soap and Ointment. I put the Cuticura Ointment on her face, left it for a half hour and then washed it with Cuticura Soap. That night she rested fine and the next day was looking much better. I kept it up and within three or four weeks they completely healed her. "Every time I combed my hair it would come out in handfuls. I rubbed the Cuticura Ointment into the scalp night and morning for three weeks and used the Cuticura Soap in shampooing. Now I can comb my hair all the time and I will not have a single hair on the comb." (Signed) Mrs. Emma Arthur Collins, Jan. 28, 1914.

Samples Free by Mail

Although Cuticura Soap (25c) and Cuticura Ointment (50c) are sold by druggists and dealers throughout the world, a sample of each with 32-p. Skin Book will be sent free upon request. Address post-card: "Cuticura, Dept. T, Boston."

Useful and Practical Gifts for Christmas

The Christmas season is the happiest of the whole year, because everyone is doing something to make others happy. The planning and buying of gifts and remembrances is enjoyed by old and young, and the spirit of the holiday season fills us all. If you want to make the choosing of your Christmas gifts more pleasant and easy, come and select from the stocks that we show of practical and sensible things. Our stocks are attractive, the goods are comparatively inexpensive and your money will not only go farther in buying them, but your friends will get years of service from your gifts. It is an ideal exhibition in every way, and we trust you will come and see it.

Cummings & Lewis,

"THE DRUGGISTS"

LIGHT ON RICH FOUNDATIONS

Federal Board to Probe the Attitude of High Finance

ROCKEFELLER AND OTHERS TO BE CALLED

Important Men Are on the List of the Witnesses

Denver, Dec. 18.—At the close here yesterday of the inquiry into the Colorado coal strike, Chairman Frank T. Walsh announced that the federal commission on industrial relations will resume its sittings in New York on Jan. 11, when it will inquire into the activities in industrial affairs of the Rockefeller, Cleveland and Sage foundations, the Baron de Hirsch fund, the Carnegie benevolence, the Rockefeller charities and similarly richly-endowed organizations.

Expert witnesses will be called from all over the country. Plans for New York will be completed in Washington before the end of this month.

"The commission will investigate," the official programme says, "the rights, powers and functions of self-perpetuating organizations under their present charters and the extent to which these charters may be stretched under the constitution of the United States, and the restrictions which constitutional limitations impose."

"It will investigate the attitude of high finance toward industrial questions; what organizations such as the Rockefeller foundation are doing to relieve industrial unrest; how are the policies of these organizations shaped and by whom? What part does the source of their income play in determining their policies shall be?"

"Whether self-perpetuating organizations such as the foundations are a menace to the future political and economic welfare of the nation?"

"What figure do they cut in politics? What is the labor policy of 'big business' in general?"

The list of witnesses to be examined in the New York inquiry includes the names of Andrew Carnegie, John D. Rockefeller, Jr., J. P. Morgan, President Francis L. Hine of the New York clearinghouse, Jacob H. Schiff, Elbert H. Gary, T. P. Shonts, Theodore N. Vail, Dr. Charles W. Eliot, President Arthur T. Hadley of Yale, Seth Low, Frank A. Vanderlip, George W. Perkins, Daniel Guggenheim, Norman H. Ream, John Hays Hammond, Robert W. DeForest as head of the Russell Sage foundation; Cleveland H. Dodge, Henry C. Frick, Samuel Gompers, Secretary Jerome J. Greene of the Rockefeller foundation, Rev. Frederick Gates as manager of the Rockefeller charities, Starr J. Murphy as John D. Rockefeller's counsel and director of the foundation, W. L. Mackenzie King of the Rockefeller foundation, Director John M. Glynn of the Sage foundation, Director Allen T. Burns of the Cleveland foundation and Ralph M. Easley of the National Civic Federation. Samuel Untermyer is scheduled to testify on interlocking directorates and other witnesses are Robert Bruere, as trustee of the Rand School of Social Science; George W. Kirchwey Kent, professor of

Resinol

heals baby's itching skin

RESINOL OINTMENT and Resinol Soap are absolutely free from anything of a harsh or injurious nature, and can therefore be used with confidence in the treatment of babies' skin troubles—eczema, teething rash, chafings, etc. They stop itching instantly and speedily heal even severe and stubborn eruptions. Doctors have prescribed Resinol for the past nineteen years.

Resinol Soap and Resinol Ointment are sold by all druggists. For trial use of each, write to Resinol, Dept. K, Baltimore, Md.

law in Columbia university; Seth W. Milliken, Professor T. M. Garver of Harvard, Professors Charles Austin Beard and John Bates Clark of Columbia, Isaac Seligman and W. H. Allen, formerly of the New York Bureau of Municipal Research. The commission will probably invite as witnesses United States Senators Kenyon of Iowa and Owen of Oklahoma, who led the fight in Congress against a charter for the Rockefeller Foundation.

Chairman Walsh says the commission intends to investigate thoroughly the charge that the creation of the Rockefeller and other foundations represents the beginning of "an effort to perpetuate the present position of predatory wealth, through the corruption of the sources of public information."

John R. Lawson, colored member of the executive board of the United Mine Workers of America, was excused from testifying yesterday because he is under indictment, but was permitted to read a plea to President Wilson to send Seth Low, in his capacity as member of the conciliation board, to John D. Rockefeller, Jr., to urge the Colorado operators to accept the federal mediation plan.

Governor Ammons, as a witness yesterday, defended his course in the strike troubles, and Mrs. Helen Ring Robinson characterized Ammons in her testimony as "our hysterical governor."

CO-EDS PAINTED HER FACE WITH INK, GIRL CHARGES

She Asserts That the Hazards at Purdue University Stuck Pins in Her, Too.

Lafayette, Ind., Dec. 18.—Mabel Rogers of Shoals, Ind., who has brought suit for damages growing out of a hazing episode in the girls' dormitory at Purdue university, in which seven former girl students at Purdue are defendants, came here Wednesday and was subjected to an oral examination before the attorney for the defendants.

She said that when the seven girls entered her room they suddenly began sticking her with pins and painted her face with red ink. Finally, she said, she was disrobed and thrown into a bathtub filled with cold water.

She said some of the girls who assisted in the hazing had been friendly with her prior to the occurrence and others had not. She went home and has not been able to return to the university to resume her studies, she said, as the cold bath and other treatment had shattered her nerves and left her in a weakened physical condition.

There has been considerable talk about a compromise in the case, but thus far no such arrangement has been made.

The defendants have not filed their answer to the complaint, but it is probable Wednesday's examination will lead to the filing of an answer. The seven defendants are Mary Clark of Indianapolis, Ruth Cowan of Chicago, Mary Sheridan of Attica, Esther Kistner of Terre Haute, Agnes Phillips of Monroeville, May Blue of Star City and Helen Lee of Oxford.

PLAINFIELD.

Rev. G. H. Holt of the Barre Baptist church will preach at the south district schoolhouse Sunday afternoon at 2:30.

PATRONAGE AS A CLUB

President to Use It on Senators Who Oppose Him

MUCH WAR TALK IN WASHINGTON

The President Is Accused of Stretching the Constitution

Washington, Dec. 18.—Mutterings of war between the White House and powerful Democratic senators who have gained the displeasure of the president because they have not supported some of the administration measures grows more and more audible about the Senate. The president is seeking to punish recalcitrants with use of the patronage club, just as Taft set out to punish Republican insurgents. The result is that no end of trouble for the remainder of the session, and, in fact, the rest of the administration, is foreshadowed.

When the Senate rejected John D. Lynn of Rochester for district attorney of western New York, because Senator O'Gorman objected to him the row fairly opened. Now it has been accentuated because the president is determined to hold Lynn in office the rest of this session. Meantime senators are pointing to a statute which forbids payment of money to any official in a case like Lynn's.

Asiring of views of senators on the floor, at executive sessions in the near future is expected. Senators Martin and Reed, as well as Senator O'Gorman, are aggrieved over appointments made against their wishes. But there are other Democratic senators who are wrathful, though they have said little about it.

Senators who resent the stand taken by the president in flouting the Senate by keeping Lynn in office assert that such action is unconstitutional.

Senator Martine who is fighting George Hampton as collector of the Camden internal revenue district, has received letters charging that Hampton is not a good Democrat and voted against Bryan in 1896.

One of the causes of the present trouble is the feeling of Senator O'Gorman, as well as some of the other Democrats, that Secretary McAdoo is given too much say in appointments, not only in New York, but elsewhere.

Representative Smith of New York protested to the president yesterday against the appointment of Lynn as United States attorney at Rochester, N. Y., and against the participation of Secretary McAdoo in New York appointments.

He told the president the Democrat party in New York was being hurt by appointments without the recommendations of congressmen. The president said he would further investigate the case of Lynn.

SAYS PROHIBITION BILL HAS BUT POOR CHANCE OF PASSING

Congressmen Are Flooded with Petitions Urging the Hobson Act—Vote on It to Be Taken Next Week.

Washington, Dec. 18.—Churches, Sunday schools, temperance societies and clubs all over the land yesterday flooded Congress with appeals for the passage of the Hobson national prohibition amendment. With the vote on the measure listed for next Tuesday, representatives from every section were hearing from their constituents "pro" and "con." The House bill basket was too small to contain more than a portion of the petitions that poured in.

On all sides yesterday it was admitted that the House will vote the rule providing debate on the amendment resolution itself. Democratic leaders have passed the word that they want a showdown, and as a result there will be little attempt to stop the bill from passing.

Representative Hobson admitted yesterday that his cause has only small chance of winning.

"But if it does not," he said, "we shall carry the fight into the 64th Congress. I believe this nation will vote against a Congress that refuses to wipe out the curse of alcohol."

5,000,000 MORE ACRES OF WHEAT.

Total Area of Winter Wheat This Year Is 41,263,000.

Washington, Dec. 18.—Area of winter wheat sown this fall is 11.1 per cent more than last year, an increase of 4,537,000 acres, the total this year being 41,263,000 acres, according to estimates yesterday of the department of agriculture.

Condition of the crop Dec. 1 was 88.3, against 97.2 a year ago and 90.3, the 10-year average.

Never in the history of the country has so large an acreage been seeded to winter wheat as is indicated in the government's estimate. Interests who follow crop conditions carefully have of late been predicting a record acreage of wheat, but yesterday's figures are far in excess of anything anticipated. An acreage of 41,263,000 in winter wheat is proof positive that the farmer of the wheat belt has looked ahead and has seen the prospects of an increasingly heavy demand for American wheat supplies.

Next year's crop in Europe will be cut into enormously if the war continues and the belligerents can be expected to draw heavily on this country's surpluses. Furthermore, recent high prices for wheat, May futures selling as high as \$1.39 a bushel, have furnished an incentive to the farmer to enlarge his acreage planted to this cereal.

Weather conditions since the planting of the winter wheat crop have not been favorable, and for that reason the condition of the crop on Dec. 1 is reported at 88.3, compared with 97.2 in 1913 and a 10-year average of 90.3. Out of 36,506,000 acres planted to winter wheat last year there was produced 684,000,000 bushels.

Rye acreage of 2,851,000 acres on Dec. 1 is a new record and compares with 2,702,000 last year.

HUB-MARK RUBBERS

THREATENING WEATHER
Laugh at it. Put on your comfy storm coat and your Hub-Mark rubbers and go down town. We guarantee the best protection. Hub-Mark rubbers are perfection in service, and that means economy. Hub-Mark rubber footwear for men, women, boys and girls is made by the largest and best equipped factory in the world, and the makers of Hub-Mark rubbers are proud of their reputation.
